

Trail Features

The Occoquan Greenway links the County Government Complex to the Town of Occoquan using a mix of paved and natural surface trails. Trail users can expect varied terrain with views of the Occoquan Reservoir as well as water access. Leashed pets are welcome on the greenway, but please provide your own pet waste bags.

The Greenway is currently under development with Segment 1 partially open, and Segments 2, 3, and 4 fully open to the public. For the best trail experience, park at the Lake Ridge Marina trailhead and walk on the natural surface trail and on-street segments to Antietam Elementary School.

*The future route between Springwoods Drive and the County Complex is in the conceptual planning phase.

Legend

- Open Natural Surface Trail (2.3 Miles)
- Open Paved/Sidewalk Connection (3.0 Miles)
- Planned Trail Alignment (6.5 Miles)
- P Parking (May Be On-Street Parking)
- 🚶 Trailhead

More Information
